Preface

This 2009 Replacement Volume 13 of the official Tennessee Code supersedes its 1995 predecessor, and was made necessary by new and amendatory legislation. This volume was prepared by the editorial staff of the publisher with the assistance of Paige A. Seals, for the Tennessee Code Commission.

Eight kinds of tables are compiled in this volume:

—Session law disposition tables that show the Code location of legislative acts from 1715 through 2009;

—Parallel section tables showing the location in Tennessee Code Annotated's original edition (1955) of sections contained in a number of earlier codes;

—A table showing changes in Tennessee Code Annotated section numbering since 1955;

—A table listing Tennessee municipalities, the counties they are in and giving information about incorporation dates, charters and population;

—Tables of county populations

—Mortality tables;

—Annuity and valuation tables; and

—Standard Industrial Classification Manual—Major Group 86 information

Population figures are taken from publications of the U.S. bureau of the Census or from material provided by the secretary of state of Tennessee or by the municipal technical advisory service at the University of Tennessee.

Abbreviations used in the tables are: A. Cap. = amends caption; appn. = appropriation; c. or ch. = chapter; Const. — Constitution; Eff. = effective date; Emer. = emergency clause; E.S. = extra session; Leg. = legalizing act or provision; L. Int. = declaration of legislative intent; n. = note; O = obsolete; R or (R) = repealed; Rplg. = repealing; S = superseded; Sav. = saving clause; Sep. = separability clause; Spec. = special or local law; Temp. = temporary; Tr. = Transferred; Unconst. = unconstitutional.

ADVANCE CODE SERVICE

Three times a year, at roughly quarterly intervals between delivery of Code supplement pocket parts, we publish Tennessee Advance Code Service

pamphlets. The Advance Code Service keeps your Code as up-to-date as possible by providing notes to cases, opinions of the Attorney General, and law reviews received after the cutoff for inclusion in the preceding Supplement, as well as other pertinent information. Advance Code Service pamphlets are cumulative, so that you need retain only the latest pamphlet to have all the updated material published since the preceding Supplement.

ADVANCE LEGISLATIVE SERVICE

Advance Legislative Service pamphlets contain photoreproductions of Tennessee legislation. They are sent to all subscribers, as part of the annual supplement service, within weeks of an act's passage. Pamphlets also contain a table of contents, a table of Code sections affected by new laws, informative notations in the margins of acts, and an index. All these aids help you assess the impact of new legislation between the time it first becomes available and publication of the Code supplement.

AMENDMENTS

Amendment notes describe exactly what changes the legislature has made in the statute and are written so that you can reconstruct the language of the statute as it existed prior to amendment. These notes appear only in the annual pocket part supplements following each section which has been amended within the past two years. Where an amendment note states that certain provisions have been rewritten, and the former version is not set out in the note, the presumption is that the former version may be found in the bound volume.

ANALYSES

In addition to the table of contents appearing at the beginning of each bound volume, each title and chapter appearing in a bound volume or supplement is preceded by an analysis. The analysis details the scope of the title or chapter and enables you to see at a glance the content of the title or chapter without resorting to a page-by-page examination in the bound volume or supplement.

ATTORNEY GENERAL OPINIONS

Citations to Opinions of the Attorney General and Reporter of Tennessee are carried in supplement pamphlets, beginning with opinions issued in 1983. Although these opinions are advisory only, they are well-researched opinions of law and contain useful discussions of Tennessee statutes. Citations to opinions which concern the constitutionality of provisions, or which the Code Commission wishes to retain for other reasons, will appear in Code Commission Notes in replacement volumes.

CITED

Court decisions which cite or apply a statute without explanatory comment or construction are carried under the "Cited" heading. These decisions may construe statutes related to the "cited" statute and may, therefore, be helpful in giving you an overview of the law.

CODE STATUS

Tennessee Code Annotated is the official Code of Tennessee. It was adopted in 1955. Code supplements and replacement volumes are also enacted into law following their publication, in order to assure the integrity and official character of all Code text. The Code is prepared under the auspices of the Tennessee Code Commission and with the assistance of its staff. For the authority of the Commission and other statutes relating to the Code, see title 1 of the Code.

COLLATERAL REFERENCES

Articles appearing in the standard national law encyclopedias and digests concerning the subject of a Tennessee statute are cited under the appropriate statute.

COMPARATIVE LEGISLATION

Statutes from the eight states bordering Tennessee (Alabama, Arkansas, Georgia, Kentucky, Mississippi, Missouri, North Carolina and Virginia) which compare in subject matter and scope to similar Tennessee statutes are cited, generally, under the first section of the chapter or part to which they pertain. Occasionally, comparative legislation pertains to only one section in which case it is cited under that particular statute.

You may wish to look up comparative legislation from neighboring states and to consult their annotations to see how foreign courts have construed and applied statutes similar to those in Tennessee.

COMPILER'S NOTES AND CODE COMMISSION NOTES

If nothing else, compiler's notes and code commission notes should always be read because they point out important information or special circumstances concerning a statute.

Code commission notes are prepared under the direct supervision of the Tennessee Code Commission to convey information that is not apparent on the face of a Code section.

Repealed statutes have compiler's notes citing the legislative history of the repealed section, the chapter and section of the public act responsible for the repeal, and a reference to new statutory provisions, if any, which replace the repealed statute. Transferred, superseded, obsolete and unconstitutional statutes have similar notes.

CROSS REFERENCES

Cross references refer you to other statutes which may affect a law or place it in context. Cross references do not cite all related statutes, however, since these can be identified by using the General Index.

COURT RULES

A softcover Court Rules Annotated volume is included in your Code set. This volume is periodically supplemented and will be replaced every two years. Rules of the Supreme Court, the Court of the Judiciary, the Court of Appeals, and the Court of Criminal Appeals, rules of appellate, civil, criminal and

juvenile procedure and rules of evidence, as well as local rules of practice and procedure in the courts of certain counties are included, along with appropriate annotations and indexes. Rules are printed essentially in the form in which they have been promulgated, with only minor editing for stylistic consistency.

Advisory Commission Comments which have been added after the original comments have, in brackets following each additional paragraph of comment, the date the paragraph was added.

DECISIONS UNDER PRIOR LAW

See *Notes to Decisions*.

DISCIPLINARY BOARD OPINIONS

Notes under this heading appear in the Court Rules volume and its supplement, and refer you to opinions of the Board of Professional Responsibility of the Supreme Court of Tennessee.

EFFECTIVE DATES

Effective date notes appear only in the pocket part supplements to the bound volumes. These notes show the effective date for enactments and amendments made during the past two years. An effective date note will appear under each section enacted or amended, except where an entire chapter or part has been enacted, in which case the note will appear only under the first and last sections of the chapter or part.

Where repeals, enactments or amendments are postponed, bracketed dates in the boldfaced catchline and explanatory information in the compiler's notes enable you to ascertain the valid law both before and after the postponed effective date.

HISTORICAL CITATION

The historical citation appears in brackets immediately following the text of the statute. The historical citation includes the year, chapter and section of all public acts enacting or amending the statute. By finding these public acts in the session laws, you can trace the history of a section from its original enactment to its present form.

The historical citation also includes references to the sections of former codes in which the statute was previously compiled (as in "Code 1932, § 325" cited in the historical citation to § 4-3-1803). Amendments to the statute which have been implied by subsequent legislation rather than specifically mandated are indicated by "impl. am." followed by the public act chapter and section number. Statutes which have been transferred from former section numbers within this Code cite the former section number in the historical citation. For instance, in the historical citation for § 4-3-203, "T.C.A. (orig. ed.), § 4-308" indicates that § 4-3-203 was transferred from § 4-308 which appeared in the original edition of the 1955 Code. In the historical citation for § 4-3-1009, "T.C.A., § 4-328" indicates that § 4-3-1009 was transferred from § 4-328 which appeared in either a replacement volume or a pocket part supplement to the original edition of the 1955 Code.

When used in conjunction with the Tables Volume (see *Tables below), the historical citation can be an invaluable aid in legal research.*

In the Court Rules volume, court rules carry historical citations showing the date of any amendment to a rule. The date a set of rules was originally promulgated appears beneath the heading to the set.

INDEXES

The General Index volumes are updated and replaced annually. In addition, at the back of each bound volume in the set, there is a volume index which indexes all the material contained in that particular volume.

Also included with the index volumes are the following items of interest: a Title and Chapter Index, which is a short index for use by those familiar with terminology used in the T.C.A.; POPULAR NAMES OF ACTS main heading; SHORT TITLES main heading; and the Index to Uncodified Public Chapters.

As accurate and thorough as these indexes are, there is no such thing as an index that is affordable, convenient, *and* perfect. Your best defense against index wild goose chases is familiarity with indexing techniques. To that end, a list of Suggestions for Fast, Effective Use of the Index has been included on the inside front cover of each index volume, and a more detailed treatment is given in the Foreword to the Index.

At the end of every supplement pamphlet (except for volumes 1 and 13, and the Index and Court Rules volumes), a table entitled "Code Sections in This Pamphlet" lists every Code section within the scope of the volume that has been added, amended, repealed, transferred, superseded, rendered obsolete, or deemed unconstitutional since the bound volume was published. This is a convenient index to the supplement pamphlet, and gives you one place to check to see if there have been any changes in statutes that interest you.

LAW REVIEWS

Articles from the Tennessee law school law reviews and other professional journals are cited under each statute referred to in the article.

NOTES TO DECISIONS

All state and federal cases which construe or apply Tennessee law or the Tennessee or U.S. Constitutions have been annotated and are cited under the pertinent statutes. Where a decision has been reviewed by a higher court, the subsequent judicial history and disposition is noted in the case citation if such disposition has any bearing on the annotated material. Where two or more decisions state the same rule of law, the case citations are cumulated under one case note.

Case notes are grouped together under headings called "catchlines." The catchlines identify the basic subject matter of the case notes and assist you in locating pertinent notes. The catchlines are arranged in logical order. Where there are two or more catchlines, an "analysis" listing all the catchlines precedes the annotations.

Where a statute has been amended or repealed and replaced with similar subject matter, case notes construing or applying the former statute are frequently retained under "Notes to Decisions." However, where the case note construes or applies the former provisions and is of value only insofar as it illuminates the background of the present provisions, it is cited under the

heading "Decisions Under Prior Law." "Decisions Under Prior Law" are arranged in the same manner as "Notes to Decisions."

Where a group of case notes applies to more than one statute in the same volume, the case notes are usually cited under the most appropriate statute; a cross-reference is inserted under the "Notes to Decisions" of the related statutes, under the appropriate catchline, referring you to the section carrying the pertinent case notes.

NUMBERING SYSTEM

A new numbering system has been implemented by the Code Commission which facilitates the organization of sections. This system divides existing chapters into "parts" so that several related, but distinct, subjects can be compiled in one chapter. The new numbering system consists of three-tier numbers rather than the former two-tier numbers. Thus, former chapter 29 of title 4 (former §§ 4-2901 — 4-2926) was redesignated in 1979 and organized into two parts, §§ 4-29-101 — 4-29-120 and 4-29-201 — 4-29-207. The number in the first tier represents the title; the second tier represents the chapter; and the last tier represents the part and section.

4	-	29	-	1	10
Title		Chap.		Part	Section

For example, § 4-29-110 is the tenth section in the first part of chapter 29 of title 4. Section 4-29-203 is the third section in the second part of chapter 29 of title 4.

Where former two-tier section numbers have been transformed into this three-tier system, a parallel reference table is provided showing the disposition of the former sections. Furthermore, the former two-tier section number appears in the history line of each section transformed to the three-tier system.

OBSOLETE STATUTES

Where the Tennessee Code Commission has determined that, in light of more recent legislation or court decisions, a statute is no longer valid, the statute has been omitted with an indication that it is "Obsolete."

PARALLEL REFERENCE TABLES

Certain titles, chapters and groups of sections which have been repealed in their entirety and replaced with similar provisions or which have been transferred to new section numbers are accompanied by a parallel reference table which refers you from the former section number to the section number of the present provisions. These tables generally appear at the front of the bound volume or preceding the title or chapter in the supplement.

REPEALED STATUTES

Statutes which have been repealed are so indicated in brackets following the section number. Compiler's notes containing the historical citation of the former statute, the legislation responsible for the repeal, and present statutory provisions concerning the same subject matter (if any) appear after each

repealed section or after the first section of a repealed chapter. References to repealed statutes are ordinarily dropped upon volume revision.

REPLACED VOLUMES

The Code is regularly updated and streamlined by the replacement of volumes. Although a current set of the Tennessee Code Annotated contains the currently applicable statutes, users are encouraged to retain replaced volumes and their supplements for historical reference.

SECTION HEADINGS

According to § 1-3-109, section headings or "catchlines" are not to be construed as part of the law. The Code Commission has authority, under § 1-1-108(a), to "change the wording of and prepare new section headings and symbols." Working together, the Code Commission and the publisher continuously review catchlines to ensure that they give all necessary information as briefly and accurately as possible. Generally, T.C.A. catchlines give no more information than is necessary to distinguish one section from others you might consult. Thus, the catchline for § 1-3-109 reads "Section headings and histories," not "Section headings and histories not part of law"; the longer form would be used only if the chapter had another section that focused on headings and histories from a different angle. In addition, T.C.A. catchlines often use popular terminology in an attempt to shed light on a section's meaning and save you valuable research time, even though the popular term appears nowhere in the section and may be less accurate than its technical equivalent.

The Code Commission and the publisher invite your suggestions on ways to improve particular catchlines.

SECTION TO SECTION REFERENCES

Each section referred to elsewhere in the Code is accompanied by a section to section reference which cites all the statutes referring to the subject statute.

SENTENCING COMMISSION COMMENTS

These comments, contained under sections of the criminal laws amended by chapter 591 of the Public Acts of 1989, were written to the text of the sections of chapter 591, as codified herein. These comments have not been revised to reflect amendments to these sections after 1989. They have been retained to provide guidance on the original intent of those sections which may not be affected by later amendments.

SUPERSEDED STATUTES

A statute which has been superseded by the enactment of subsequent legislation is omitted and indicated as "Superseded" in brackets following the section number. A compiler's note containing information concerning the superseding provisions accompanies a superseded statute.

TABLES OF CONTENTS

Each bound volume carries a table of contents listing titles, chapters, and parts. In addition, a complete table of T.C.A. titles is updated and published

annually in the supplement pamphlet for Volume 1. This table, which follows the Preface and precedes the User's Guide, helps you find the T.C.A. volume you need, and also helps you keep track of titles that have been relocated due to volume replacement.

TABLES VOLUME

The Tables Volume (Volume 13) of the Tennessee Code Annotated is one of the most helpful tools in legal research.

Included in the Tables Volume are parallel tables referring the user from section numbers in former codes to section numbers in the original 1955 Tennessee Code Annotated. Also in Volume 13 is a table of former and current section numbers for Code sections whose numbers have changed since 1955. This table provides a reference to Code sections renumbered in the conversion from the former two-tier numbering system to the new three-tier system.

Disposition tables list each chapter and section of all the Tennessee public acts passed by the legislature and indicate where each has been compiled in the present Tennessee Code Annotated. Public act sections which were repealed prior to the publication of the original Tennessee Code Annotated in 1955 have been omitted in order to reduce the size of the Tables Volume; however, sections repealed after 1953 are indicated as repealed with a citation to the public act chapter and section responsible for the repeal. Public act sections which have not been compiled are indicated with notations such as "special," "temporary," "repealing," "effective date," "separability," "emergency," "legislative intent," "unconstitutional," etc.

The disposition tables and the historical citations following the statutes work in tandem (see *Historical Citations*, above). In order to determine where a particular public act chapter or section has been compiled, refer to the disposition tables. For instance, the tables show that Public Act 1965, ch. 181, § 7 has been compiled in § 11-9-107. The historical citation following § 11-9-107 indicates that it was enacted by Public Acts 1965, ch. 181, § 7 and that it has not been amended. The object is to help you find your way from the public acts to the compiled section, or from the section to the public acts.

Other helpful information is contained in the Table volumes or its current supplement, including mortality tables, annuity valuation tables, a table of county populations based on the federal decennial census, and a table showing the incorporation date, population, and basic charter of Tennessee municipalities.

TEXTBOOKS

Citations to some of the standard Tennessee treatises have been included where they refer to Tennessee statutes.

UNCONSTITUTIONAL STATUTES

Statutes determined to be unconstitutional are omitted and indicated as "Unconstitutional" in brackets following the section number. A compiler's note giving the court decisional authority accompanies such section.

Acts are identified by year (and session), chapter, and section, and their current disposition is noted under "Herein". Acts of 1715 through 1789 were Acts of North Carolina; acts of 1792 through 1795 were ordinances and acts of the territory of the United States south of the River Ohio. See the Preface for a key to abbreviations used in this table. Codification locations repealed prior to 1985 had their former location replaced by repeal information such as R' 1984, ch. 302, § 5. However, as an aid to researchers, location information after 1984 has not been deleted, but rather has been left in with (R) indicating repeal, or similar symbols. Go to the table of Code Section Number Changes Since 1955, look up the code section in question, and there you will find the transfer, repeal or other information.

Code Section Number Changes Since 1955

This table shows the current disposition of Tennessee Code Annotated sections that have been transferred from one Code location to another. It also lists the disposition of earlier statutes that had the same TCA section designation later used by another statute. Finally, for statutes with two-unit section numbers (in use between 1955 and 1984 and gradually converted to three-unit numbers beginning in 1979), it gives the reason (repeal, obsolescence, etc.) why some two-unit statutes were not carried over into the current three-unit system.

Bracketed numbers after an entry in the "Former Sections" column indicate which version of the section number is involved. Many section numbers have been reused one or more times, with the different versions containing unrelated subject matter. An entry followed by "[1]" would be for the first use made of a section number, "[2]" denotes the second use made of that number, etc.

See the Preface for a key to abbreviations used in this table.

Note: Mortality rates contained in the 1980 Commissioners Standard Ordinary Table were obtained from experience of 1970-1975, but contained an added element designed to generate life insurance reserves of a conservative nature in keeping with the long-term guarantees inherent in life insurance contracts. Premiums for life insurance policies, on the other hand, are based on assumptions that include expected mortality experience.

Mortality rates for the 1983 Individual Annuity Tables are, again, conservative as related to the actual and projected experience upon which they are based.

* Projected to 1983.

Annuity and Valuation Tables

Explanation of Use. The following annuity tables are not computed from interest tables upon the mere expectancy of life as given in the mortality tables at a given age, but by a determination of what amount, if drawing a specified rate of interest, would be required to pay an annuity, such determination being computed upon the average chance of life or death within the year at a given age and for each subsequent year to the extremity of human life. The numbers in the tables give the present value of $1 due at the end of each year during the life of a person of specified age. It is from these tables that the present value of a life estate or annuity is usually required to be determined by the statutes in the list preceding the mortality tables. The percentages given are those ordinarily used in the valuation of estates and not those used by insurance companies to determine premiums or value polices.

Present Value of Annuities. To find the present value of an annuity based on the life of a person from the following tables multiply the yearly payment by the number found opposite the present age of the person upon whose life the annuity is based in the column for the applicable percent.

Present Value of Life Estates and Remainders. To find the present value of a life estate or the use of the income of a specified sum for life multiply the total value, in which the life estate exists, by the applicable per cent, then multiply that product by the number opposite the age of the life tenant in the proper annuity table in the column for the applicable percent (the same percentage should be used throughout). The value of the remainder interest equals the value of the property minus the value of the life estate.

Derivation of Tables.

Table I is based on the Actuaries' Combined Experience Table of Mortality.

Table II is based on the American Experience Table of Mortality.

Table III is based on the Carlisle Table of Mortality with interest at six percent.

Table IV is based on the Commissioners 1958 Standard Ordinary Table of Mortality with interest at six percent.

Table V is derived from U.S. Treasury Regulations § 20.2031-10.

Table VI is based on United States Life Tables: 1969-1971.

Tables VII-A and VII-B are based on U.S. Treasury Regulations §§ 20.2031-7(f) and 25.2512-5(f) and are for valuing estates of decedents dying after November 30, 1983.

Tables VIII-A, VIII-B, and VIII-C, are based on U.S. Treasury Regulations §§ 20.2031-10(f) and 25.2512-9(f) and are for valuing estates of decedents dying before December 1, 1983.

Table IX is a Present Value Table.

This table is for computing federal estate tax with interest at 6% and is applicable to estates of decedents dying after December 31, 1970. It was derived from U. S. Treasury Regulation § 20.2031-10 which prescribes the use of such table in determining the value of an annuity which is payable annually at the end of each year during the life of an individual. If the annuity is payable at the end of semi-annual, quarterly, monthly or weekly periods the value should be determined by multiplying the aggregate amount to be paid within the year by the amount opposite the number of years nearest the actual age of the person whose life measures the duration of the annuity and such product so obtained is then multiplied by whichever the following factors is appropriate:

1.0148 for semi-annual payments.
1.0222 for quarterly payments.
1.0272 for monthly payments.
1.0291 for weekly payments.

TABLE IX

(Present Value)

(The following table may be used for ascertaining the present value of any sum at varying rates percent for any number of years from one to seventy-five inclusive. By its use, the present value of an annuity certain can be ascertained, as well as the amount of damages properly awardable for death or permanent injury arising from the wrongful act, negligence or default of another, if the person so killed or injured, or his family or next of kin were, by such death or injury, deprived of a known, fixed and certain amount of earnings, salary of other income for a definite number of years. The table is computed on the basis of compound interest, the formula being $I - (I + i)^{-n} - I - v^{n}$.)
